KAYAM
Solar Water Heater

Affordable Solar Power

Kayam Solar Corporation, is a technology firm with core focus on offering affordable Solar power. We install, maintain and service Solar energy solutions in **All States In INDIA** distribute these products India.

Solar water heaters use Sun's energy to heat water during the day. This water is stored inside an insulated tank for use whenever required. Even during winter season, the Sun rays have enough energy to heat water up to 60°C to 70°C, which is more than sufficient for bathing, washing clothes, use in kitchen, etc.

Product Features:

- **Govt. (MNRE) Subsidy benefit available**
- **Suitable for use in areas with Hard water**
- **Toughened glass tubes for extra protection**
- **Stores hot water for more than 48 hours**
- **Industry leading guarantee 5 years***
- **Completely Safe & Pollution free**
- **Local service support available**

Technical Specifications:

Type of collector	:	Evacuated Glass Tube (ETC)
Glass Tube size	:	47mm dia. x 1800mm length
Inner tank material	:	Stainless Steel 316L grade
Insulation	:	High quality PUF material
Outer tank	:	Power coated / Stainless Steel
Guarantee	:	5 years*

Tank capacity	Tank width
100 L	3.5 feet
200 L	6 feet
300 L	8.5 feet
500 L 1000 L 2000 L	

Our other products:

☼ Solar Hybrid Air Conditioner ☼ Solar Water Pumping System ☼ Solar Street Light
☼ Solar Inverter battery charging solution ☼ Solar Street lights ☼ Solar charge controller
☼ Solar power plant (1 kW - 100 kW) ☼ Solar hoarding light
